STOCKS IN THE EAST

Speculative Buying Shows a Large Increase.

PRICES GO MUCH HIGHER

IMPROVED MONEY SITUATION IS A PRINCIPAL FACTOR.

York. Oct. 15.—There was an outof large and buoyant speculation
a stock market that lifted prices
the course of the day from 1 to
points. The buying came from
divergent elements, but the patent
as that an enormous number of
were bought in an eager and conmanner on a rapidly rising scale
ges. Forced covering by a largely
ed short interest had something
with the rise. Bull manipulation
number of powerful cliques, some
m newly formed this morning,
in the advance. The commission
reported that they had large orbuy from outside sources. What
from these various elements had in
gregate of the day's trading it is
ssible even to estimate, but no
technical conditions could have
d in so considerable a rise in prices
a widely distributed list.
rue basis of the advance cyldently
the change in the money outlook
e promise held out to the specuspirit in the general conditions,
has been steady growth of confinMall street for some time past
general outlook for business. It
en firmly held that as soon as
uncertainties twere disposed of
would be a renewal of business
up to the high level of the reosperous period. On the other
he growing constriction of the
supply left room for doubt whether
ervening period could be safely
without such a money stringency
ild be disastrous to speculative
ments. The conviction crystallized
hat the danger of a money strinwas mitigated and the expected
ection demand for securities was

been effected without serious narm he stock market, thus conserving the plus reserve.

The gold engagements in Europe last is are expected to arrive in time to win next Saturday's bank statement, bank of Prance's announcement ough the Associated Press of a demination to furnish export gold to it a money stringency, and the existed readiness of the secretary of the same end, a notable effect in strengthening fidence. The large additional engagements of gold announced this morning mise further help to the local market, bough the receipt is deferred for sevitives. This is due to the fact that gold comes from South Africa. The twas much dwelt on in speculative dies, as marking the resumption of output from the Transvaal mines, the exact source of the supply, and channels through which it is to come re kept shrouded in mystery. The expected settlement of the coal like was also a factor in the unvary; strength in the group of coalers. Rezing in stocks which had their exame advance early in the day made the sing slightly irregular, but prices genily were maintained at the top. There was a decided growth of activity bends and some notable advance's in ices, but there were weak spots which det the market irregular. Total sales, were weak spots which irregular. Total sales States bonds unchanged on the

GRAIN AND PROVISIONS.

Wheat Drops During Entire Day's Session.

Session.

Chicago, Oct. 15.—Wheat started weak and grew weaker as the session progressed. Liquidation was the only leature. Had the news been manufactured for the purpose it could have done but little more in the way of giving satisfaction to the holders. December opened at 75½ to 74½, held for a while over 74½, and then on the visible increase of 1.57,000 bushels, dropped to 74½ and closed 1½ under Saturday at 74½,474½. Liverpool closed 1½d lower, the weather was all that could be desired by a crop mover and receipts were liberal. Corn was steady, considering the influ-

at 35%.
Oats were dull and easier early, but steadied later. December closed unchanged at 21%.
Provisions started weak in sympathy with wheat and a lower hog market, but recover of on buying thought to be for an influential operator. January pork closed 2½c lower, fard a shade higher and ribs a shade down.
